## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

**Claim 61 is rejected under 35 U.S.C. 102(a) as being anticipated by Tea et al. in *Journal of Microelectromechanical Systems*, vol. 6, no.4, pages 363-372.**

Tea et al. disclose the etching of Iridium with XeF<sub>2</sub>. See the last half of the second full paragraph on page 364.

The instant application claims priority-in-part to 08/966,797, which has a filing date of November 10, 1997. However, the date on which the transcript of the Tea document was originally submitted is February 25, 1997. Therefore, it is evident that the method of claim 61 was known or used by others in this country prior to the filing date of 08/966,977.

### ***Double Patenting***

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Art Unit: 1763

**Claims 2-4, 12-14, 24-27, 53, 57-62 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-6, 8-10, 12-17, 21-23, 25,26, 28, 29, 31-33 and 35-51 of copending Application No. 09/874102.**

Although the conflicting claims are not identical, they are not patentably distinct from each other because each limitation of the instant claims are claimed in the copending Application No. 09/874102, the only difference being that Application No. 09/874102 recites additional limitations such as the inclusion of oxygen or ozone in the reactive gas.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

***Allowable Subject Matter***

Claims 2-4, 12-14, 24-27, 53, 57-60 and 62 are allowable over the prior art but they stand rejected under the judicially created doctrine of obviousness-type double patenting. The obvious type double patenting rejections may be overcome by filing the necessary terminal disclaimer.
